

Commercial Access Control

Convenient, customizable, and scalable, Alarm.com for Business Access Control empowers customers to have complete control of their business—all through Alarm.com's user-friendly website and app. Offer customers a powerful, all-in-one solution that combines access control with intrusion, video, and energy management.

Intuitive Access Solutions

INCREASE RMR AND SALES OPPORTUNITIES

Provide end-to-end or customized managed services to meet your customers' needs. Enjoy the convenience of remote account creation, management, and troubleshooting. Alarm.com Access Control also offers retrofit-friendly solutions to upsell existing customers.

REDUCE CUSTOMER SUPPORT TIME

Quick account creation, a plug-and-play network setup, and install wizards help reduce time onsite. Enjoy added flexibility with multiple hardware options direct from Alarm.com or your local distribution center and add up to 10 inputs and 5 relay outputs per door.

INCREASE CUSTOMER ENGAGEMENT

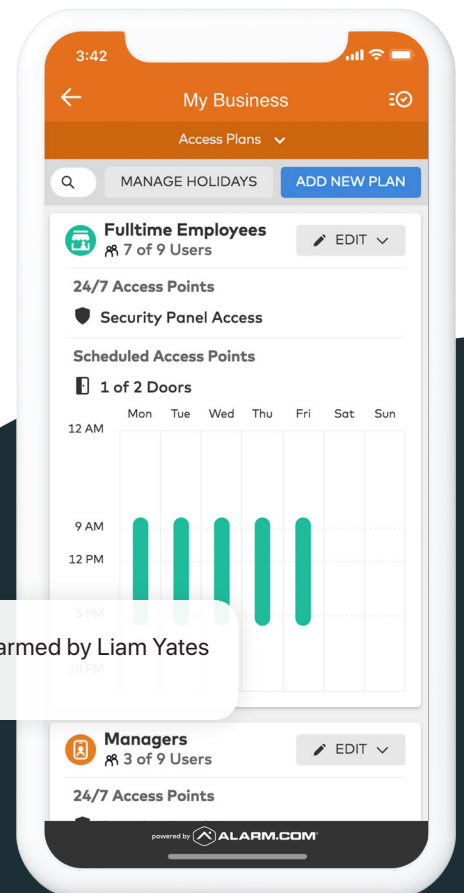

Enable automatic arm/disarm through badge swipes to reduce false alarms and ensure safety or eliminate the need for keys entirely with mobile credentials. Customers can also leverage customizable access reports to track the movement of employees or visitors throughout the business at specific times.

Key Features

With Alarm.com for Business Access Control, customers can:

- + Disarm the security system by swiping their access badge
- + Get video alerts when specific doors are opened
- + Find video of access events directly from the access history timeline
- + Use smart phones to unlock doors with mobile credentials

Plus, complimentary 24/7 Managed Access adds value to your services by letting you access a customer's system for end-to-end white glove account management. This feature can be audited or revoked by the customer at any time.
